Human rights violations of King Mahavajiralonkorn, Head of State of Thailand

Dear *President Judge Piotr Hofmanski*,

We wish please to bring your attention to the murderous record of King Vajiralongkorn, and to the fact that, since ascending the throne and becoming Head of State, he has taken deliberate steps to consolidate his personal power over the armed forces, the police, the senate, the parliament and the judiciary, to ensure that he himself can dispense his own idea of justice.

Thai people and all who care about Thailand and the future of democracy in Southeast Asia are appalled by the fact that this murderous person, by claiming hereditary immunity from the law in Thailand, can walk on the world stage as Thailand's Head of State.

ACT4DEM has been documenting King Vajiralongkorn's criminal activity, gross violations of human rights and financial crimes since 2010.

On behalf of all concerned we will hold a symbolic protest in front of the ICC on 4 October, 14:00 - 16:00 hrs, underlining that the monarchy has always resorted to extrajudicial killing when the people rise to demand their democratic rights. (The relevant authorities in The Hague have been informed about our small action.) We have prepared an information dossier for the ICC describing some of the King's criminal activities. We would like to deliver this dossier to the ICC around 14.00hrs on the same day, 4 October.

ACT4DEM's campaign to bring the King to justice is supported and requested by a great number of Thais who live in fear of a future under King Vajiralongkorn. ACT4DEM works with a team of human rights lawyers investigating, under German law, the conduct of the King's court in Germany. We are hoping that this work will open possibilities for more in-depth investigation into both the scale of the king's criminal conduct and the scale of the impact of his criminal conduct on the hopes, aspirations and well-being of everybody in Thailand.

May we kindly request that a representative of the ICC come and meet with us to receive the information dossier we have prepared, for the ICC, about King Vajiralongkorn's human rights violations.

Yours sincerely,

Junya Yimprasert
Chairwoman, ACT4DEM
